2015›2018 COLLECTION: WHAT'S NEW

The 2015›2018 Abet Laminati Collection offers a new range of decors, thanks to the addition of many new hues, materials and textures just waiting to be discovered and touched, which complement the existing spectrum.

The Collection consists of photographic and graphic inspirations: each catalogue tells a story, natural light and matter merge and create magic, introducing new and classic decors to express and inspire the next project.

For over 50 years, Abet Laminati bases its passion and growth on presenting itself as an experimental workshop where revolutionary guidelines are set, also thanks to the ongoing and intense collaboration with the most innovative designers.

These combinations, also thanks to the special graphic design which brings some order to the creative chaos of the Collection, are an invitation to experiment, thrill, and appreciate, not only the technical and high performance aspect, but also the most playful and unexpected side of the decors range.

The most recent outcome of this work is a lively, renewed Collection that includes a wide choice of surfaces, realized through responsible and sustainable management of the manufacturing process, and their great quality is the result of the excellent processing standards employed.

Abet Laminati quality and technical skills are put to use for imagination and creativity purposes. Experience becomes smoothness and audacity for future projects, which are going to play their role in a world which continuously renews itself.

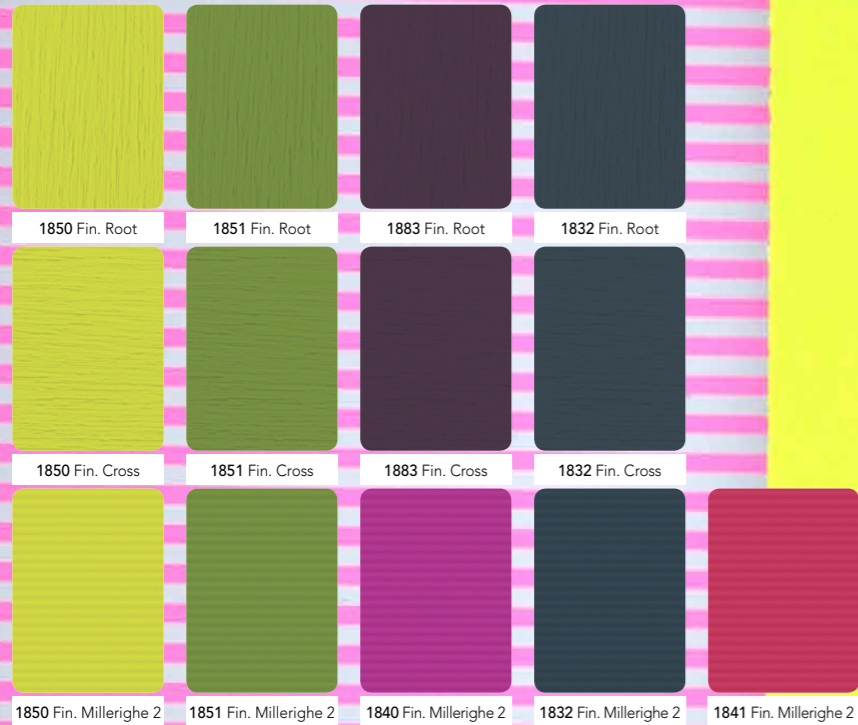

COLOURS

Deep and bright or delicate and fogged, the new proposals of the Collection enrich the shades of the colours palette. A swarm of decoratives that exalt each tone feature and develop endless projects.

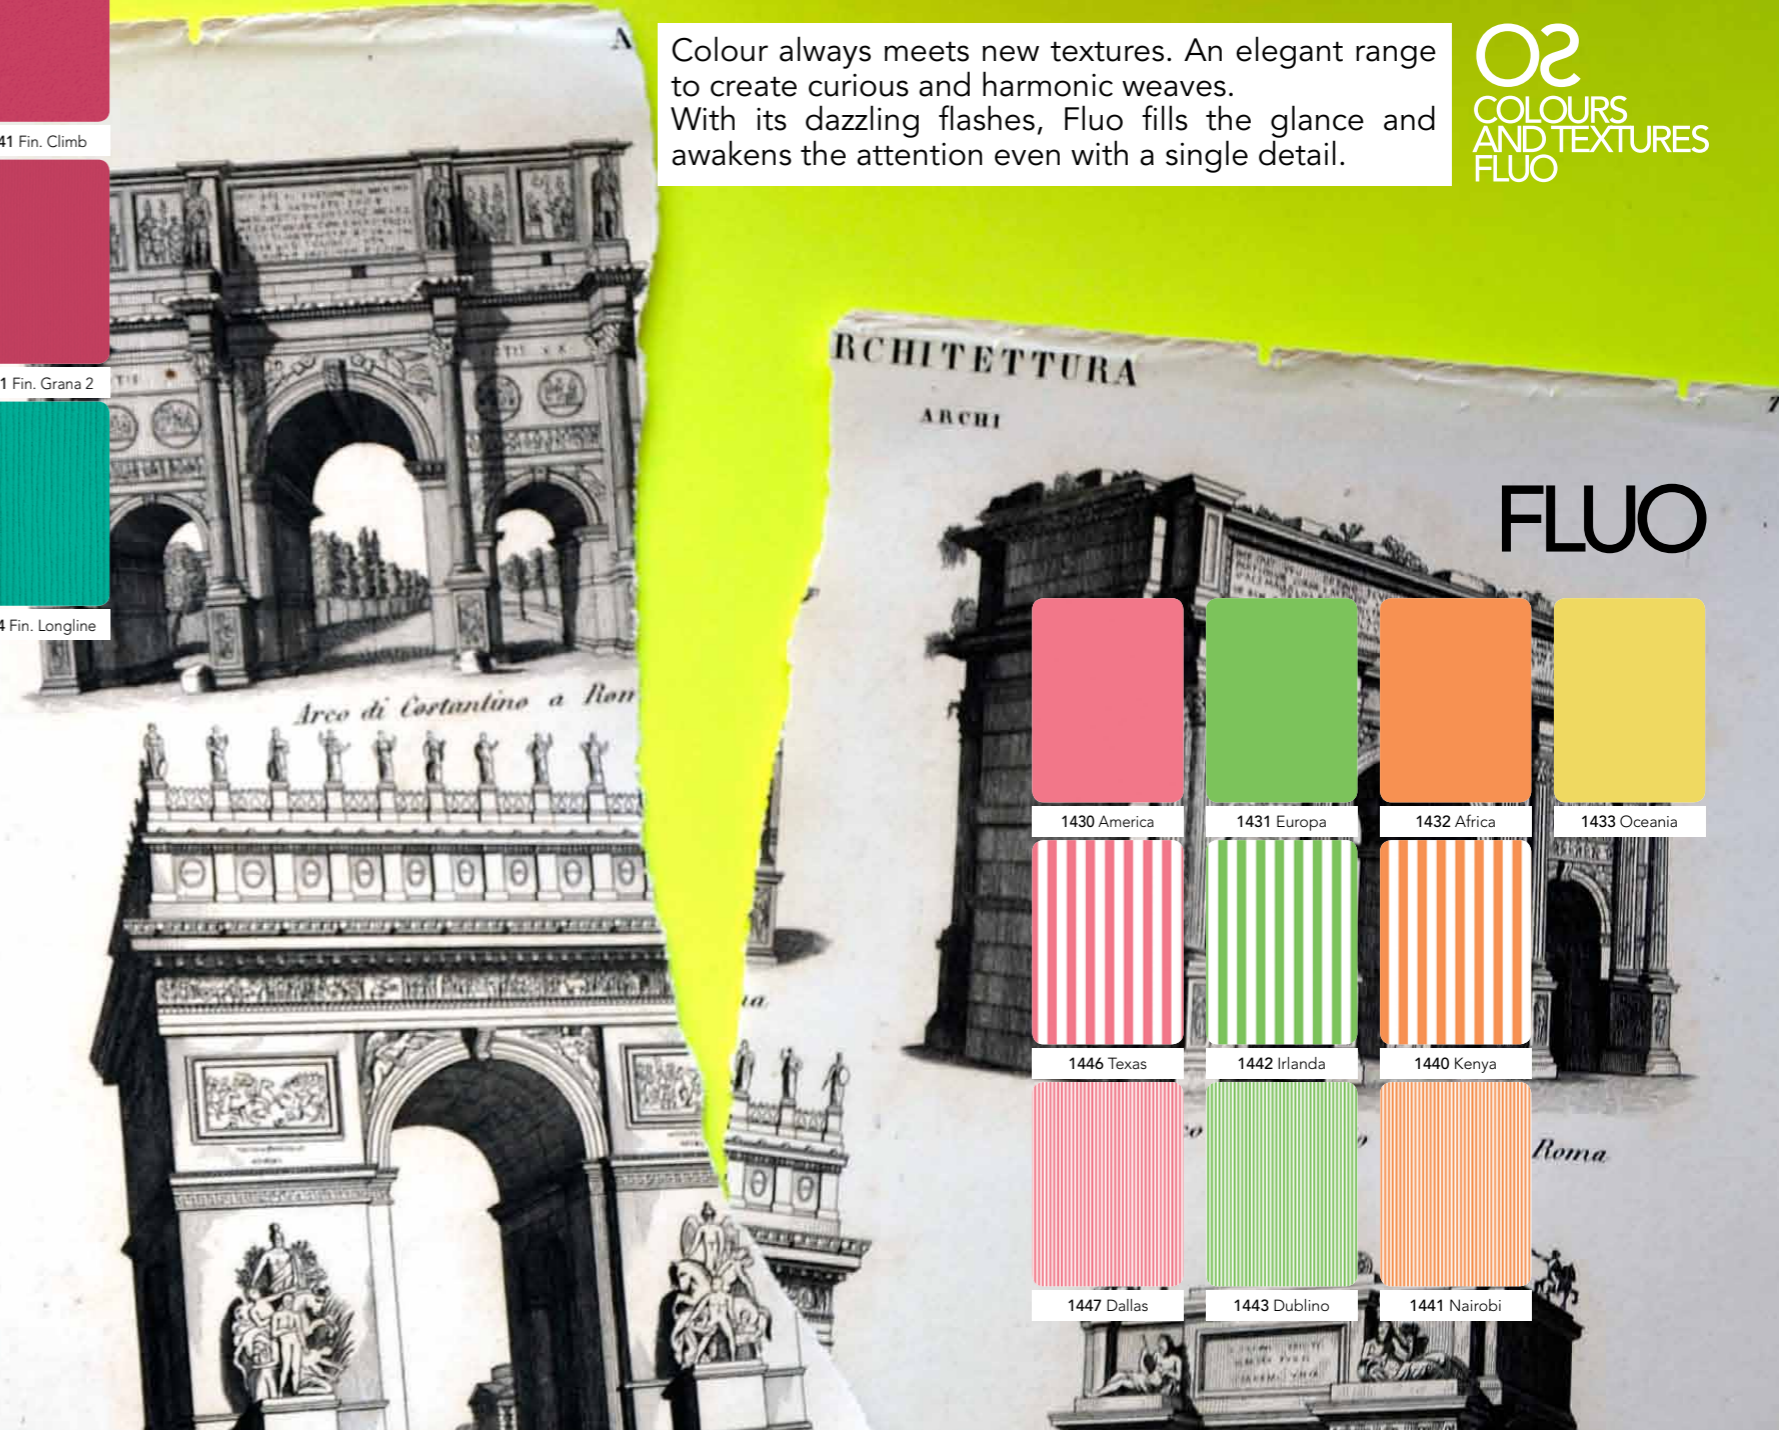

COLOURS AND TEXTURES

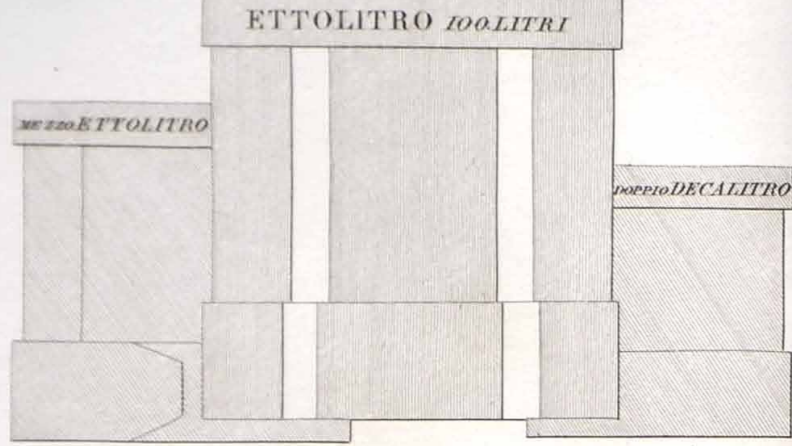

Colour always meets new textures. An elegant range to create curious and harmonic weaves. With its dazzling flashes, Fluo fills the glance and awakens the attention even with a single detail.

ABET WOOD

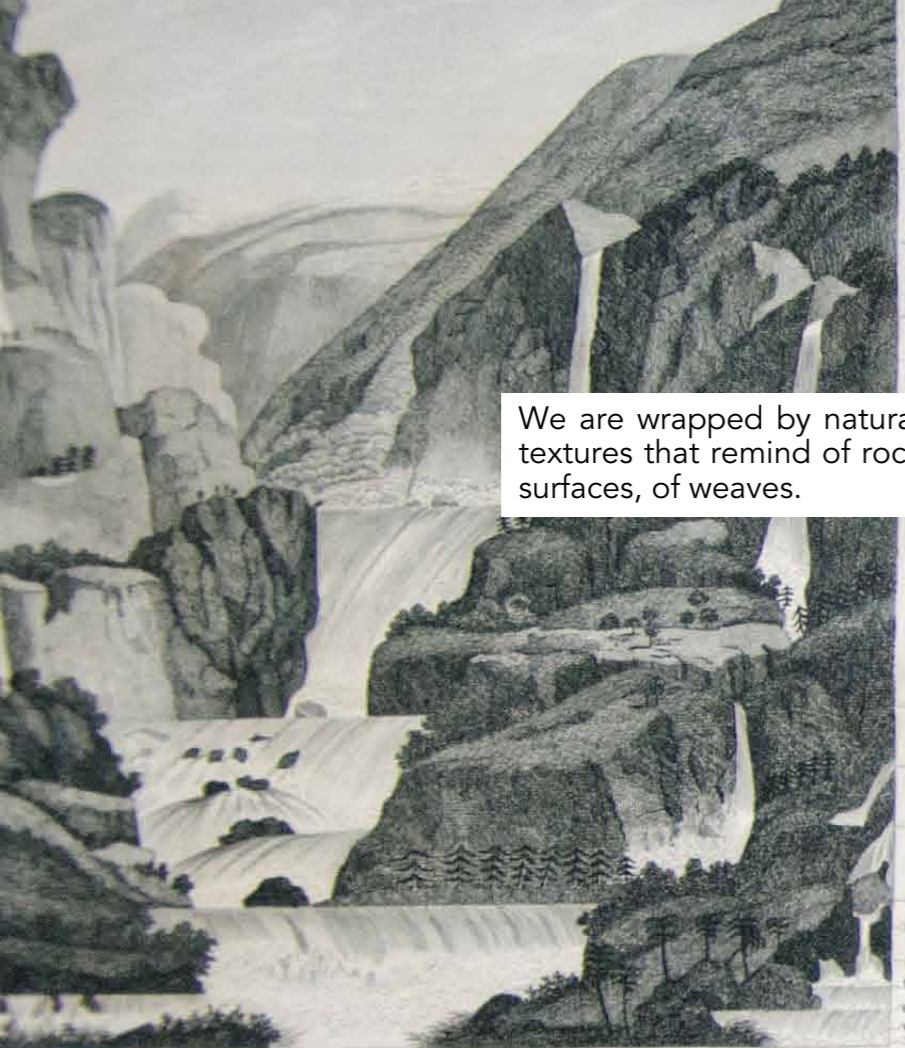

1728 Quercus

1729 Natural Elm

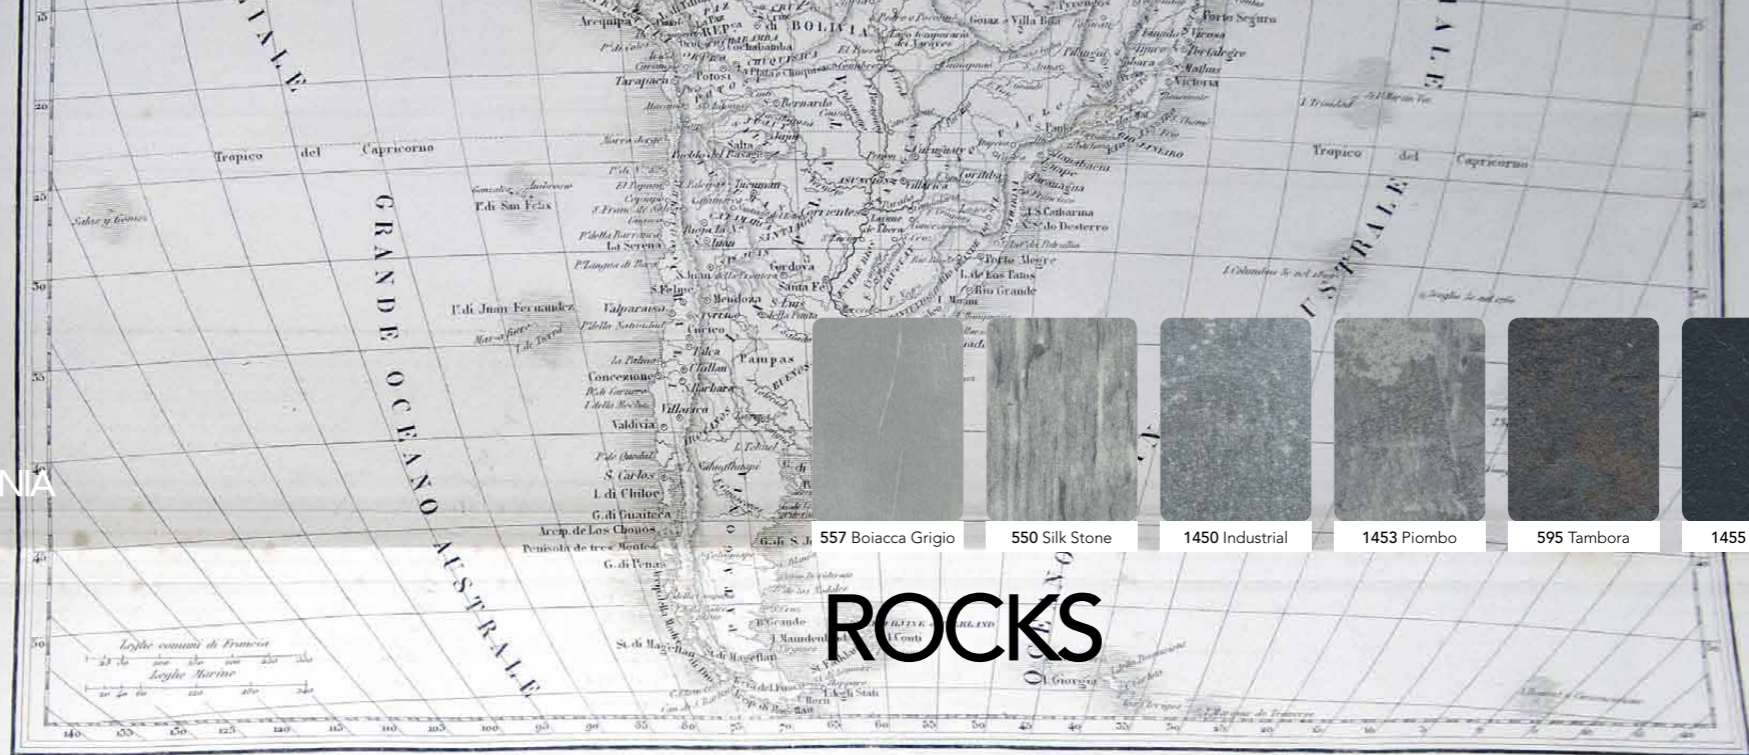

In this rich and material catalogue, the protagonists are the real essences. The Collection matches perfectly the tones of the wood by revamping its real origin.

06
ABET WOOD

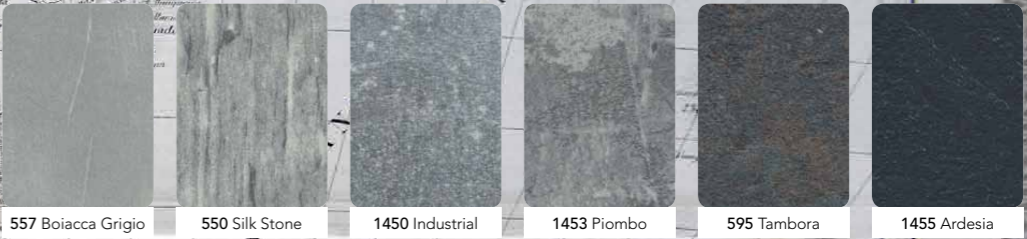

We are wrapped by natural tones and textures that remind of rocks, of rough surfaces, of weaves.
