

KEUCO

We assume a guarantee – according to our manufacturer guarantee statement – of 5 years for our products, provided that it can be demonstrated that the product was purchased and mounted through a franchised specialist craftsman. The guarantee period begins on the date of delivery from our plant. The statutory warranty period is contained in the guarantee period. Electronic components and lighting articles are omitted from this guarantee statement.

Even the most advanced printing technologies cannot fully reproduce the exceptional finish and subtle colour schemes of our products. Only original KEUCO products can provide you with an optimum impression. These are on display in stores catering to the special sanitary trade.

No part of this brochure may be reprinted or duplicated, even in part, without our explicit consent and without specification of the source manufacturer.

DIMENSIONS AND SUMMARY OF MANUFACTURERS	128

“As medium-sized, owner-operated company KEUCO looks back today – since its founding in 1953 – on a long tradition in the manufacture of design-oriented products for the bathroom. From the original specialist and market leader for high quality bathroom accessories and mirror cabinets, we have developed into a full provider of bathroom furnishings. The special and unique thing about our bathroom furnishings is their consistent design – from the washbasin through the fittings and accessories right to the mirror cabinets and bathroom furniture: created by renowned designers and distinguished with numerous design prizes. In addition to the premium design, all KEUCO products offer the highest quality and innovative technology. KEUCO – our passion for your personal well-being in the bathroom.”

Hartmut Dalheimer, Managing Director/Engelbert Himrich, Managing Partner

EDITION 300
Character instead of indifference

EDITION 300 captivates by its individual character and focused geometry. It generates unanticipated variations that elegantly complement the architecture of the bathroom. This is how EDITION 300 establishes its unmistakable charm.

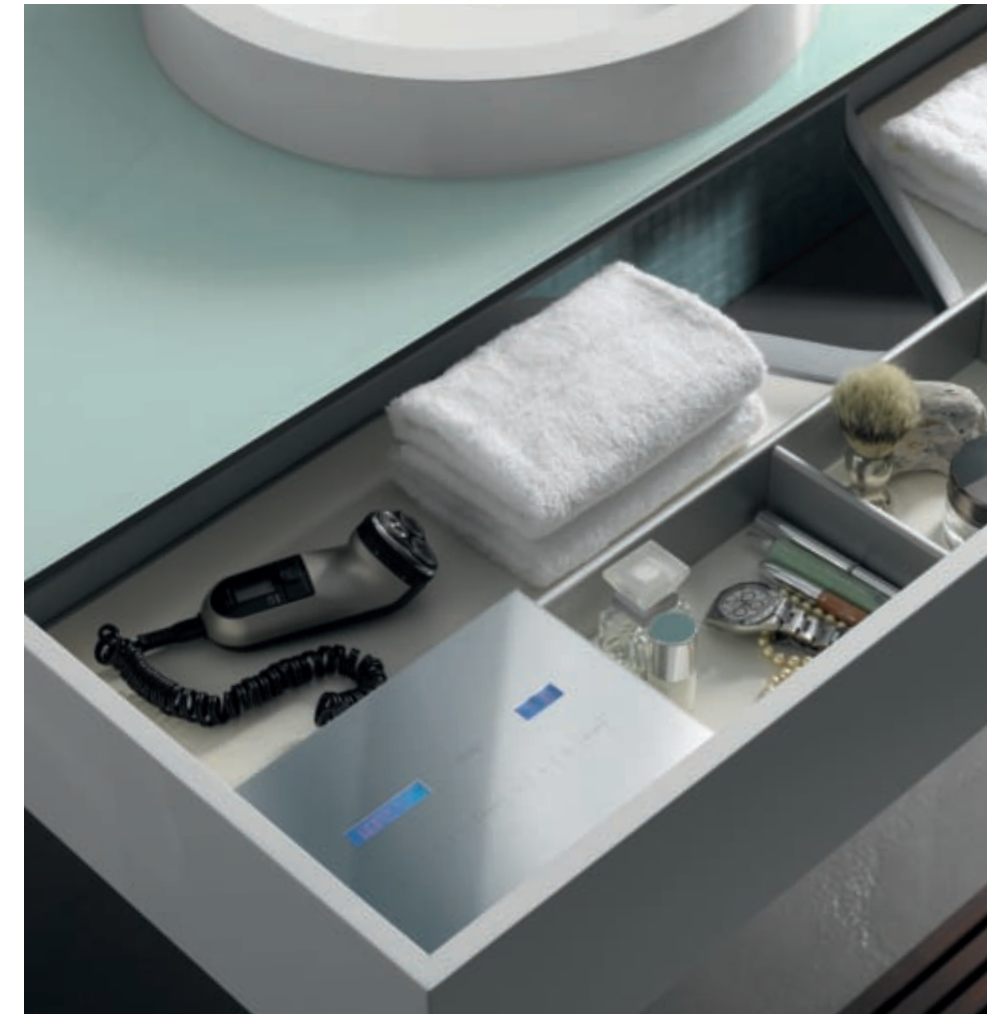

EDITION 300

EDITION 300 demonstrates par excellence what one can make of a washbasin and its immediate surroundings. Round and rectangular washbasins, space-making drawer systems, cabinet doors with integrated, height adjustable shelf systems, and atmospheric light mirrors and mirror cabinets to keep everything in the bathroom, large and small, in order.

Product overview, see pages 86 – 91

The extraordinary EDITION 300 design is reflected in every detail. There is even a radio with integrated socket for your hair dryer or electric shaver. It integrates elegantly into the spacious drawer of the vanity unit.

Product overview, see pages 86 – 91

EDITION 300 offers an impressive number of combination possibilities. You can select freely between various surfaces, mirror cabinets, round or rectangular washbasins and light mirrors. We supply fittings as single-hole or three-hole models or as over or under-plaster models, and also integrated into

the mirror or light mirror as desired. EDITION 300 is rounded off by an attractive range of clever accessories.
Product overview, see pages 86 – 91

The tub side fitting is a logical development in the EDITION 300 designer line. With shower fittings, you can choose between over or under-plaster models. Entirely adaptable to your individual taste and to meet the specifications of the construction circumstances.

Product overview, see pages 86 – 91

EDITION 300 design is expressed in the accessories in its own unique way. With beautiful symmetry, circular edges and straight lines combine into simple, highly functional forms.

Product overview, see pages 86 – 91

Cast mineral washbasin with base unit, fixed towel holder, tumbler holder with genuine crystal glass.

Towel ring.

Toilet paper holder.

EDITION 200
Generosity needs greatness

Minimalism and unpretentiousness: EDITION 200 achieves it with elegant ease. Characterized by clear linearity, abundance of materials' variations, and discrete yet characteristic carcass connections made of aluminium.

With EDITION 200, design and ergonomics coexist in harmony. Intelligent details ensure special comfort. For example, a mirror cabinet that swings open upwards offering a mirror image even while open, or the arrangement of drawers in the bathroom furniture under the washbasin.

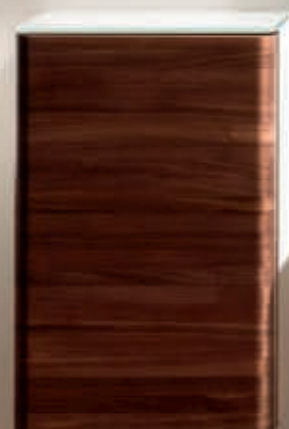

Product overview, see pages 92–95

ELEGANCE
Variety as a principle

With its different surfaces the bathroom furniture of ELEGANCE can be successfully integrated into a wide range of furnishing styles. Here striking, genuine wood fronts made of walnut veneer create an elegant-cosy atmosphere.

The chrome-plated stool with seat made of walnut wood demonstrates the consistent continuity of ELEGANCE. Right: Premium, natural materials in perfect harmony – glass, chrome and wood unite in this washbasin ensemble.

Product overview, see pages 96 – 103

Attraction on the wall: The solitary lamp illuminates to the sides with indirect light, its front is mirrored. The horizontal lights of the light mirror feature the same design.

Product overview, see pages 96 – 103

Right angles and straight lines coupled with sweeping curves. ELEGANCE convinces with its expressive, classic-modern design. On the left, towel rail and sponge wire basket with hygienic, removable plastic insert; on the right the single-lever basin mixer – it includes intelligent ergonomics and is very cleaning-friendly.

Product overview, see pages 96 – 103

ELEGANCE

Possible solutions à la carte: Even the shower units can be flexibly adapted to your wishes. Because, the great variety allows unrestricted design options. And that is always a part of ELEGANCE.

Product overview, see pages 96 – 103

ELEGANCE

EDITION Atelier
The room re-invented

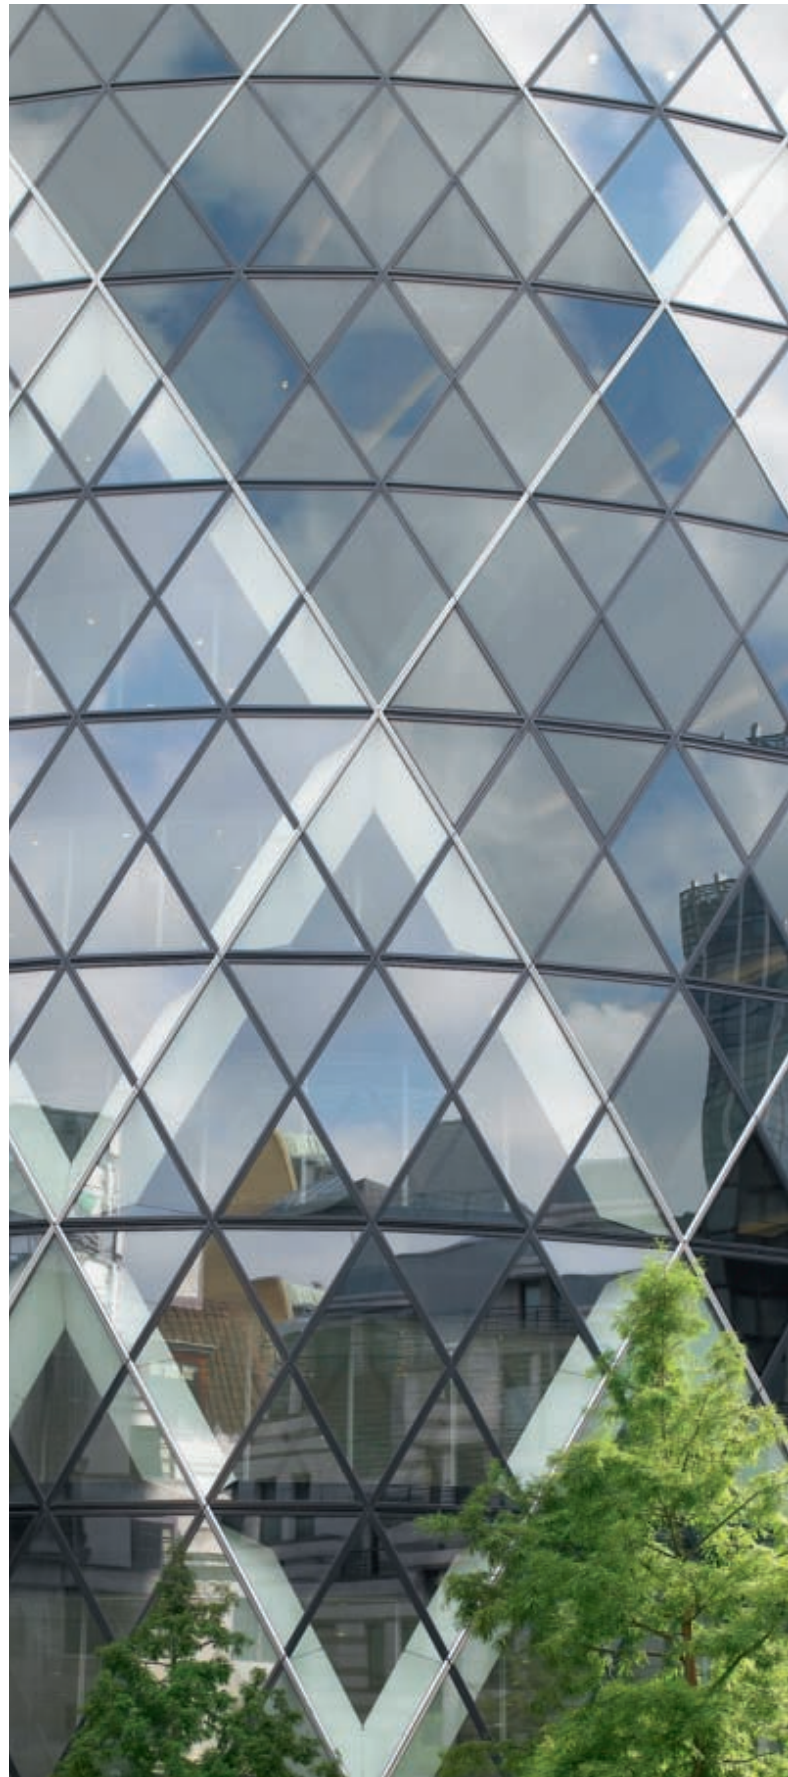

Traditional living concepts pale in the brilliance of new possibilities. Influenced by today's different lifestyles, the boundaries between rooms are redefined. A greater emphasis on individuality calls for entirely new approaches. Here EDITION Atelier establishes milestones of functionality and flexibility. With a design that is as exciting as modern living itself.

The refreshing clarity of the design is also on display here too. Both the bath tub fittings and the washbasin fittings are free-standing, which offers added planning flexibility. The days of stereotyped bathroom design solutions are over. The pictured bath tub fitting has a single lever mixer. The tap sports two rings that are built-in regulators: turn one for water flow and the other to set the temperature. The striking shower unit also blends seamlessly into the design concept.

Product overview, see pages 104 – 105

From clear linearity and thoughtfully designed functionality to toilet brush sets and double WC paper roll holder: The chrome accessories of EDITION Atelier, too, come into their own on the frontier between objectivity and forward-looking design. The massive quality generates an especially haptic experience.

Product overview, see pages 104 – 105

Floor lamp, chrome, with textile shade.

Foam-soap dispenser, chrome.

Foam-soap dispenser and stacking accessories (four-piece storage set), chrome.

EDITION Atelier

Side table with porcelain top.

EDITION Palais
Innovation meets tradition

As people's needs evolve, the character of the architecture evolves with them. The best characteristics endure and new ideas are integrated. EDITION Palais embodies the fusion of innovation and tradition. By combining sovereign understatement, a touch of opulence and the state-of-the-art technology, it forms an entirely new dimension. Discover the dimension of timelessness.

The discretely designed curve of EDITION Palais is evident in all of the products: in the sweeping furniture fronts, in the rounded edge contours, in the striking oval of the light mirrors and mirror cabinets, and in the fittings and accessories. A luxurious and subtle overall impression is emitted.

Product overview, see pages 106 – 111

EDITION Palais

The traditional craft of furniture making isn't the least most important factor in bringing alive the character of the classically inspired EDITION Palais. Very involved workmanship is evident, for example, in the taut fronts or the mitred drawers.

Product overview, see pages 106 – 111

The different fittings' variations, just as the large selection of accessories, offer an abundance of possible ways to establish an individual statement. Pictured are, above, the three-hole washbasin mixer flanked by a tumbler holder with porcelain tumbler and a lotion dispenser, also made of white porcelain. Below, the classic two-handle bath tub mixer with hand-held shower head for on-wall mounting is pictured. Beside that, an EDITION Palais rail. Right: Towel ring and two-part, swivelling towel holder.

Product overview, see pages 106 – 111

PLAN
The evolution of comfort

PLAN is as versatile as today's lifestyle. It has a richness of variety which, through both aesthetic as well as ergonomic characteristics, makes individual dreams come true. And a freedom to transform which makes a PLAN bathroom into an investment for many decades to come. PLAN adapts itself to your life.

PLAN

Light mirror, middle unit and washbasin with washtop form an elegant ensemble here. Conveniently close at hand: the chrome double tumbler holder for the matching accessory set, and the side towel holders. With the rotating knob integrated in the washtop, the basin waste can be opened and closed.

Product overview, see pages 112 – 123

PLAN will always remain unmistakably PLAN – but offer you nevertheless every possibility to create your own furnishing style. The furniture is available either as fine wood veneer or as white or black lacquered. The middle unit jalousie, made of white glass, integrates graciously into the overall appearance.

Product overview, see pages 112 – 123

DESIGN **PLUS**

Handling the fittings is as pleasant to experience as the forms are pure. Whether with chrome, stainless steel or aluminium finish: The excellent design and the unmatched quality of PLAN fittings are remarkable in each individual item. Meticulous design, by the way, reveals itself sometimes very inconspicuously: For example, through ease of cleaning.

Product overview, see pages 112 – 123

GUEST WC
Hospitality experienced

The guest bathroom is a special calling card in every house. EDITION 300, with its high degree of functionality and stylistic elegance, is especially apt at leaving an excellent impression on your guests. With the compact, minimally projecting washbasin dimensions, it is possible to design even guest bathrooms generously with charm. The towel holder and vanity unit with its front drawer and integrated towel opening offer much comfort for small rooms.

Product overview, see pages 86 – 91

With ELEGANCE, we have thought of everything – even your guests: For the smaller cloakroom there is a light mirror and washbasin in size S. Right: The foamed soap dispenser supplies a fine mousse – this has a luxurious feel and is also economical with wash lotion. Bottom right: Just as with the larger models, the small sink base unit also offers much room for storage behind its hinged door.

Product overview, see pages 96 – 103

Overall, PLAN is the most comprehensive and changeable KEUCO collection. This can be appreciated in the guest WC. The number of variations with PLAN allows the most elegant of solutions for even the smallest of rooms. On top of that, new standards have been set for matters of functionality with the single lever mixer, the pillar tap and the sensor mixer.

Product overview, see pages 112 – 123

Asymmetrical forms and the unmistakable multi-purpose rails: The JOLY design concept demonstrates its adaptability during the planning phase. It can make a small guest WC into a virtual adornment.

Product overview, see pages 124 – 125

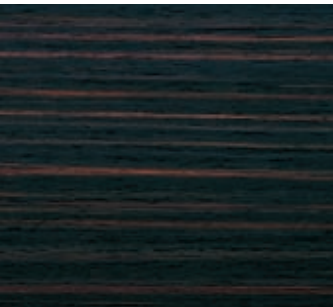

Behind the discrete elegance of glass and aluminium, VISIT presents surprisingly detailed solutions. The lotion dispenser is elegantly integrated in the panel of the light mirror. Spare WC paper and toilet brush find an unobtrusive spot in the wall box.

PLAN

Shower curtain PLAN*
all sizes custom-made
Please indicate: materials, colours,
full length and width

***Notes on production characteristics:** Vertical seams, reinforced stainless steel eyelets, distance between the eyelets approx. 20 cm, roll hem stainless steel weighed, 50 g per metre, complete with curtain rings, white.

Notes on sizes: The sizes indicated are the sizes of the finished curtain. To prevent the curtain from lying on the ground we recommend a distance from curtain to floor of approx. 30 mm. Distance between the middle of the curtain rod and the upper edge of the curtain approx. 40 mm. The width of the curtain should be approx. 1.3 to 1.5 times the length of the shower curtain rod.

Ceiling support
300 – 800 mm, consisting of:
• 1 wall mounting
• 1 shower curtain rod
• 1 connecting piece
