POLARIS

Polaris-laminaadi rikas ja sügav pind on nagu põhjatähe lohutav valgus. Polaris esindab endas Abet Laminati toodete parimaid omadusi. Tema pehme ja täiuslik värv loob innovatiivse ja loova mulje.

Polaris on Abet Laminati uusima generatsiooni juhtiv toode, olles elegantne ja jõuline lähtepunkt ebatavalisi lahendusi otsivale disainerile.

Abet Laminati disaini ja tehnoloogia uurimustöö tulemusel sündinud Polaris on katsudes sile ja sametine ning selle pinna omadused on tõeliselt erakordsed: see on kõrge vastupidavusega kriimustustele ja kuumusele ja samas ei jää selle pinnale sõrmejälgi.

See ainulaadne vastupidavuse ja sametise pehmuse kombinatsioon annab Polarisele futuristliku võlu, tehes sellest ideaalse materjali valiku ultramoodsatele projektidele, valmistades rõõmu meeltele unikaalse ja meeldiva efektiga.

Like the comforting light of the North Star, Polaris, the "alternative", rich and deep surface by Abet Laminati, represents a point of arrival. Its mellow colour provides an undoubtedly innovative and imaginative effect.

Polaris leads the category of latest generation products by Abet Laminati, serving as a sophisticated and durable reference point for inquisitive designers who seek unusual results.

Stemming from Abet Laminati's stylistic and technical research, the revolutionary Polaris is smooth and velvety to the touch, and its surface features are truly extraordinary: it is highly resistant to scratches and heat, as well as being anti-fingerprint.

The curious combination of durability and velvet smoothness gives Polaris a futuristic appeal, making it the ideal choice for ultra contemporary projects, delighting the senses with a pleasant and unique effect.
